

M.243

ELESA Original design

Handles

Material

Phenolic based (PF) Duroplast. Resistant to solvents, oils, greases and other chemical agents.

Colour

Black, glossy finish.

Assembly

Brass bosses, tapped blind holes.

Technical data

Tensile stress and impact strength: the values F1, F2, L1 and L2 indicated in the table were obtained during breaking tests carried out with the appropriate dynamometric equipment under the test conditions shown in the figure with ambient temperature.

Standard Elements		Main dimensions					Threaded bosses		F1	F2	L1	L2	⚖
