

## Latches with fold-away knob

PA

- **Material**

Rotor, stator, fold-away knob, closing lever and nut (M22x1.5) in glass-fibre reinforced polyamide based (PA) technopolymer certified self-extinguish **UL-94 V0**. Resistant to solvents, oils, greases and other chemical agents.

- **Colour**

Black, matte finish.

- **Sealing washer**

SBR rubber.

- **Self-tapping screw**

Zinc-plated steel.

- **Rotation**

90°.

- **IP protection**

IP 65 protection class, according to IEC 529 table (see page 503).

**Special executions on request** (For sufficient quantities)

Cylindrical body of the closing lever in other dimensions.

**Technical data**

The "V0" certification in accordance with **UL-94 V (Underwriters Laboratories)** (see Technical Data on page A5) indicates that on a plastic test sample with specific shape and dimensions, in the vertical position, the flame is extinguished within 10 seconds, without generating incandescent drops.
