Specification

- Ball chain
Stainless Steel
German Material No. 1.4301
- Key ring
Stainless Steel
- *Stainless Steel characteristics* → Page XYZ
- **RoHS compliant**

Accessory

- Single key rings are supplied with code no. GN 111.3-d₁.

Information

Stainless Steel-Ball chains GN 111.5 are mainly used in connection with ball lock pins and pins with axial lock.

The key rings are supplied unmounted. Both rings have the same Ø d₁.

The load values given in the above table at shear stress are theoretically obtained and indicative only. They are non-binding recommended values and rule out any liability.

How to order

GN 111.5-200-14
