

ELESA Original design

## Two-volume fold-away handles

### Material

Polyamide based (PA) technopolymer handle. Resistant to solvents, oils, greases and other chemical agents.

### Colour

Black, matte finish.

### Standard executions

- **IR.620**: black-oxide steel stud, sintered and oxidised steel flat base for embedded mounting, black-oxide steel screw.
- **IR.620-SST**: AISI 303 stainless steel stud, sintered AISI 303 stainless steel flat base for embedded mounting, AISI 303 stainless steel screw.

### Features and applications

Handle pivots freely during operation.

This series of fold-away handles has been designed for all those applications for which, owing to lack of space or for safety reasons, the handle must be folded-away once the operation has been completed.

Normal assembly example with embedded base
