

Linear actuator connectors

- **Material**
AISI CF-8 stainless steel **NI**, matte polished.
- **Slide bush**
Polyamide.
- **Clamping screws**
Identification no. **2**: with two AISI 304 stainless steel-clamping screws DIN 912 and nuts DIN 985.
- **Assembly**
The standard clamping bolts are socket cap screws DIN 912, supplied assembled. They can be replaced by clamping kits GN 911 (description see table of dimensions).

Features and applications

Linear actuator connectors GN 131.2-NI for two-way system are normally supplied only in connection with a **mounted** linear actuator and for function control.

By means of the clamping screw on the guide bores d_1/d_2 (mechanically machined) the movement can either be set or the slider can be clamped (after setting of final adjustment).

Accessories

- Construction tubings GN 990 (see page 109ff.).
- Linear actuators GN 291 (see page 119).
- Linear actuators GN 292 (see page 124).
- Clamping kits GN 911 (clamping handles GN 300.1 with distance bushing) see page 116.
