Specification

- **Steel**
 - Levelling element blackened
 - Cylinder head screw DIN 912, 8.8 zinc plated, blue passivated
 - Washer DIN 433 zinc plated, blue passivated
 - Spherical washer case-hardend

3

ST

- **Stainless Steel**
 - Levelling element AISI 303
 - Cylinder head screw DIN 912 A2-70
 - Washer DIN 433 AISI 304
 - Spherical washer AISI 303

NI

• **Stainless Steel characteristics**
→ Main catalogue page 1144

• **RoHS compliant**

Accessory

- Assembly tool GN 355.1 (Code no. see table)

Information

Levelling elements GN 355 are used for levelling and adjusting in machines are equipment.

They consist of a levelling screw, a cylinder screw with disk and a spherical washer. After making the adjustment using the assembly tools GN 355.1 available as accessory, the screw is tightened firmly causing the levelling screw and the spherical washer DIN 6319 underneath to spread and is so secured against twisting in the tap hole.

The values for w and x given in the table and for the static load capacity are to be seen as reference values which may differ depending on the prevailing situation. In general, they do not constitute a warranty of condition. The user must determine whether the product is suitable for the intended purpose.
