

# I.731+x

ELESA original design

## Revolving handles

### • Material

Polyamide based (PA) technopolymer. Resistant to solvents, oils, greases and other chemical agents.

### • Colour

Black, matte finish.

### • Standard execution

Zinc-plated steel shank, hexagon socket at threaded end.

### Ergonomy

The grooves cut into the cylindrical surface allow the optimization of the grip with the tips of the fingers, due to the small size of the handle.
