

Example of application

d_1	b	d_2	h_1	h_2	h_3	A/F	max. permissible torque in Nm
12	2	11	35	7	6	8	20
18	2	17	39	8	9	11	50
24	4	22,5	43	9	12	13	75
30	4	28,5	48	11	15	17	100
36	4	34,5	53	13	18	22	150

Specification

- Steel
 - surface hardened
 - blackened
- RoHS compliant

Information

GN 355.1 assembly tools serve to adjust GN 355 levelling elements. They are used in connection with a T-wrench or a hexagonal angle socket spanner. To ease levelling, the top end of the assembly tool has an external hexagon head which is used for turning the levelling screw with a ring spanner, ideally with a ratchet function.

For adjustment, first use the assembly tool to turn the levelling screw of the levelling element into the desired position and at the same time tighten the screw to secure the levelling element. To ensure that the setting found does not change, the assembly tool may be used to counterhold.

How to order

GN355.1-36
