Specification

- Aluminum
 - plastic coated
black, RAL 9005, textured finish
 - blank
matt shot-blasted
- Clamping bores not machined
- Socket cap screws DIN 912
Stainless Steel AISI 304
- Hexagon nuts DIN 985
Stainless Steel AISI 304
- *Stainless Steel characteristics* → Page 1144
- **RoHS compliant**

Accessory

- Clamping kits GN 911 → Page 1031

Information

The clamping bores of GN 194 T-Angle connector clamps are not machined and specially designed for construction tubes GN 990 or DIN 2391, DIN 2395 and DIN 2462 respectively. The square designs are also suitable for use in **profile systems**.

Bores and square bores of the same nominal size can be assembled in any combination. For instance, nominal size 20 has the following combination options: B20-B20, B20-V20, V20-B20 and V20-V20.

The standard version of the clamping screws are socket cap screws with hexagonal socket DIN 912. They can be replaced by clamping kits GN 911 (article code see table of dimensions).
