Information

The clamping bore of GN 278 swivel clamp connectors is mechanically machined and designed for construction tubes GN 990 or DIN 2391, DIN 2395 and DIN 2462 respectively.

The standard version of the clamping screw is a socket cap screw with hexagonal socket DIN 912. It can be replaced by a clamping kit GN 911 (article code see table of dimensions).

GN 278 swivel clamp connectors can be assembled with swivel clamp connectors GN 272, GN 274 or GN 276 to create swivel clamp connector joints.
