Specification

- Steel
zinc plated, blue passivated
- Butt-welded toggle
- **RoHS compliant**

On request

- in Stainless Steel

Information

Quick release toggle nuts GN 6336.3 are used in such applications where the knob has to be completely removed after the releasing operation and refitted rapidly for re-clamping.

Plug the toggle nut onto the threaded bolt at an oblique angle. During the clamping action, it engages into the threads of the bolt.
