Specification

- Housing brass plastic coated, textured finish black, RAL 9005 ● **MSW**
 silver, RAL 9006 ● **MSR**
- Spirit level element
 Glass plastic body
 Filling green-transparent **G**
- Casting compound mineral-based
- RoHS compliant

On request

- Filling, colourless-transparent
- Other sensitivities
- Other colours

Information

Screw-on levels GN 2282 are used to check the horizontal position of jigs, machines, devices, appliances and instruments.

The spirit levels are aligned in relation to the finished reference surface so that the bubble is centered in the middle of the marking lines once the horizontal position of the contact surface in the longitudinal direction is reached.
