Specification

- Aluminium
 - matt, slide ground
 - anodized black
- RoHS compliant

3 Information

MT
ELS

Attachment clamp mountings GN 484 are primarily designed for mounting sensor holders GN 479 and retaining plates GN 479.1. They are fitted with a central thread and for the size with $k = 20$ and higher, an additional bore template 4 x M4.

Using swivel clamp mountings GN 482 and T-Swivel clamp mountings GN 483 with the same k dimensions, attachment clamp mountings GN 484 are easily combined into articulated swivel clamp mounting joints. Clamping kits GN 511.1 with screw, type S and adjustable hand lever, type K are available for this purpose (description see table of dimensions).
