Information

The lockable Stainless Steel-Latches GN 115 lock by a turning operation limited to 90° which moves the locking behind the door frame. The bevels of the locking ease the closing of the door.

Latches with different cranks cover a range A from 6 to 50 mm.

Two keys are supplied. The key may be pulled off in both end positions.

Stainless Steel-Latches GN 115 are supplied with loosely enclosed locking.
