Specification

- Aluminium anodized, black
- Indexing line white, engraved with laser precision
- Stainless Steel-Grub screw DIN 916 with internal hexagon and serrated point
- ISO-Fundamental Tolerances → Page 1132

Information

Control knobs GN 729 are usually selected for applications which require a limited movement within 180°.

With the aid of limiting pins which protrude into the circular groove the angle of rotation can be restricted. The bore d₄ is for a spring plunger GN 614 to act as a simple detent.

The indexing line is indelible and visible from two sides.
