

**MATERIAL**

Glass-fibre reinforced polyamide based (PA) technopolymer, white colour similar to RAL 9002, matte finish.

**STANDARD EXECUTION**

AISI 304 stainless steel boss, threaded blind hole.

**Ergonomic Design**

Three ample lobes to offer a safe and effective grip to the operator even with smaller diameters when wearing gloves too.

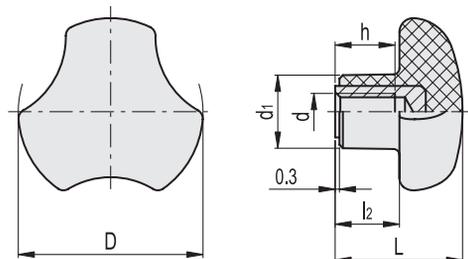

**Easy cleaning**

The absence of recesses prevent unhealthy residues or dust from depositing ensuring maximum cleaning.

ELESA Original design
